

JAPS MUST HAVE MORE TERRITORY FOR EXPANSION

(By Associated Press)
TOKIO, Feb. 19.—Japan's economic future demands more territory as an outlet for her increasing population. In the opinion of Professor Horie of Keio university, in a discussion of the economic conditions of the empire. He said: "What ever justifiable cause there may have been for the wars modern Japan has fought there can be no doubt that this consciousness of territorial limitations has played no small part in bringing them to successful issues."

"With Formosa, Korea and also practically a part of Manchuria added to the empire, is the nation now free from all economic apprehensions? The answer is of course, 'no.' Should Japan then look about for a fresh acquisition of territory? What about emigration? Japan proposed and failed to put through the principle of racial equality at the recent peace conference in Paris. The proposal deserved approval if its aim was to establish an abstract principle, but was wrong in its motive if it was intended to afford a solution of the immigration problem."

"Again, to send people abroad in order to profit by their savings is a mean way in which to enrich a country. And it is only natural that a country of higher civilization should object to such emigrants. Such a solution of the problem of over-population is unworthy of Japan, which claims to be a great power, besides being quite impracticable under present-day international conditions."

SKII JUMPERS WILL COMPETE

(By Associated Press)
DENVER, Colo., Feb. 21.—North America's premier skii riders will contest for the world's skiing championship on Genesee mountain, 20 miles west of Denver, today and tomorrow, when the sixteenth annual international skii tournament will be held. The course is half a mile long. The altitude of Genesee mountain is 9000 feet.

Preparations have been under way to make the great winter carnival one of the most successful ever staged in the west. The courses have been policed and reorganized so as to make it one of the best slides in the country, according to officials of the Rocky Mountain Skii club, under whose auspices the international event is being given.

Among the riders who have entered the tournament are Lars Haugen, former world champion; Henry and Carl Hall of Detroit, Michigan; Oliver Kahldahl, boy champion of the United States; Victor Larson, who performs the "one foot" jump stunt; A. A. Knutsen, winner of many tournaments in Norway, who now lives in Denver, and the veteran, Karl Howelson. Local entrants of more than the average skill include Bob Kinsted, Billy Berlin and Vincent Johnson.

Fred Talbot of Denver is secretary of the Rocky Mountain Skii club.

TWO BIG SHIPS ARE LAUNCHED

(By Associated Press)
OAKLAND, Cal., Feb. 21.—Two steamers, the Manulani and Manukai, said to be among the biggest cargo carriers ever turned out on the Pacific coast, were launched here yesterday by the Moore Shipbuilding company for the Honolulu route of the Matson Navigation company of San Francisco.

The vessels are of 14,000 gross tonnage each, making them approximately 2000 tons bigger than the largest vessel constructed for the account of the United States shipping board. They are strictly freight carriers.

The exact routes on which the boats will be operated have not yet been mapped out, but at least one of them will be used to supplement the service of the shipping board steamers Buckeye State and Wolverine State, operated by the Matson company between east coast ports and Honolulu. It is possible that the other will be put on a run between Puget sound points and Honolulu, but this has not been determined.

The steamers will carry sugar principally, the Matson company announced.

WINTER FUR SALE ON IN ST. LOUIS

(By Associated Press)
ST. LOUIS, Mo., Feb. 21.—Millions of pelts, valued at more than \$15,000,000, will be thrown on the market here today at the opening of the winter auction sale of the international fur exchange.

The sale will continue through March 5. It originally was scheduled to begin October 4, and continue two weeks, but was postponed until February 7, then until today, because, it was explained, of unsettled market conditions, due, in part, to the recent strike of employees of eastern manufacturers of fur garments.

More than half the pelts to be disposed of, it was said, will be sold in payments of indebtedness to the exchange. Several hundred dealers are indebted to the exchange. Albert A. Ahern, vice-president, amplified, because of inability to pay for consignments purchased at previous sales, due to the semi-demoralized market. Many of these firms are solvent, Mr. Ahern added, and the exchange merely will resell the consignments to take them off their hands.

Included in the lots to be sold are 2,625,000 moles, 2,110,000 squirrels, 1,234,000 muskrat and 726,000 opossum. Among the more valuable furs listed are 276,000 ermine, 8700 Russian sable, 1200 silver fox and 2500 sea otter.

It is expected that more than 500 buyers, a number from many foreign countries, will attend the sale.

LAY CORNERSTONE FOR MEMORIAL

(By Associated Press)
SAN FRANCISCO, Cal., Feb. 21.—High up on Inspiration point, in Lincoln park here, on a spot commanding a near view of the Golden Gate, the broad Pacific and a portion of San Francisco, a cornerstone will be laid tomorrow for the Palace of the Legion of Honor, a memorial to California's war dead, presented to the city and state by Mr. and Mrs. Adolph Spreckels.

The San Francisco memorial will be a replica of the famous Palace of the Legion of Honor of Paris. When completed the building will be used as an art gallery.

Governor William D. Stephens, Mayor James Rolph and H. C. J. Neltner, consul-general here for France, are expected to speak at tomorrow's exercises.

Prompt and courteous service is assured; prices right, too.

AIR PATROLS DO SPLENDID WORK

(By Associated Press)
NEW YORK, Feb. 21.—Airplane patrols guarding national forests saved approximately \$85,000,000 worth of standing timber from forest fires, during the last season, according to a report of the Manufacturers' Aircraft association made public today.

Between 500 and 1000 fires were reported by patrols from airplanes loaned to the forest service by the army air service. Most of these fires, it was said, were extinguished by ground forces working under direction of the air patrols.

Efforts are being made by the association, its officers said, to states.

PROFESSOR MEMBER OF TRADES COUNCIL

(By Associated Press)
SAN FRANCISCO, Cal., Feb. 21.—Professor Ira T. Cross of the economics department of the University of California, has been elected an honorary member of the San Francisco Building Trades Council and has announced his intention of attending regularly the meetings of the labor men and giving a series of educational talks.

During the war Dr. Cross conducted a school for employment managers under the auspices of the department of labor.

The work for the most part has been carried on in Oregon, California, Colorado and other western states.
